Fundición de arte

FUNDICIÓN DE ARTE

Fundidor de hierro fundido, de bronce, desde hace 6 generaciones (1850), a 65 kilómetros de París, representando a la "vieja empresa familiar", con toda la riqueza de su experiencia y su pasado, fabricamos piezas de fundición para la industria, la chimenea, la decoración interior y exterior en serie o por unidad.

Además de los artículos que figuran en nuestros catálogos también estamos especializados en la reproducción copia de piezas existentes de fundición y de bronce, y la creación de modelos según sus planos.

No dejaremos de estudiar todas sus propuestas que desee presentarnos.

Rejilla de defensa

Fundición de arte

Rejilla de puerta

Fundición de arte

El conjunto de nuestras rejillas de fundición se realiza dentro del respeto de nuestras tradiciones y se venden al mejor precio.

Nuevo resistente a los choques: nuestros balaustres, barandillas, y rejillas de fundición se fabrican según la norma NFP 01 013 y NFP 01 012.

Fabricamos rejillas de puerta, rejillas de defensa, rejillas de separación, de fundición moldeada y de hierro forjado. Nuestras rejillas antiguas son realizadas por la familia Pajarito desde 1850. Rejilla de puerta de fundición, precio consultarnos, rejilla de defensa de fundición, precio consultarnos.

También restauramos de forma idéntica por reproducción su rejilla de puerta, su rejilla de defensa, su rejilla de separación, de fundición o de hierro forjado. Esta copia concierne a todos los estilos incluso para la restauración de fundiciones Haussmannianas, antiguas y copias de antiguas.

Nuestras rejas de hierro fundido son adaptables a sus dimensiones.

Patas de fijación

Art & tradition

Patas de anclaje y patas para atornillar para barandillas, apoyos de ventana, barras de apoyo, balcones de cruces, de fundición y de hierro forjado, para fijación en madera trabajada o en una albañilería de ladrillo o de concreto.

Las patas de fijación son piezas de fundición, que deben anclarse en un mortero o fijarse por atornillado para la fijación de rejillas o barandillas en la arquitectura.

También restauramos de forma idéntica por reproducción sus patas de fijación de fundición o de hierro forjado. Esta copia concierne a todos los estilos incluso para la restauración de fundiciones Haussmannianas, antiguas y copias de antiguas.

Patas de anclaje simple

Patas de anclaje laterales (derecha/izquierda) y bajas de 180mm para fijación en exterior de los apoyos de ventana, barandillas y balcones de cruces.
